

**Articea**

## **Job Description: Flutter (Dart) Developer Intern**

**Position:** Flutter (Dart) Developer Intern

**Location:** Remote/On-Site (As per company policy)

**Duration:** 2 Months Initially, then may be extended as per requirement.

### **About the Role:**

We are looking for a passionate and skilled **Flutter Developer Intern** to join our team. You will primarily focus on creating a custom widget from scratch in FlutterFlow, with a specific goal of developing an **Instagram-like Reels Widget**. This involves implementing a seamless user experience with smooth navigation, parameter passing, and interaction with the FlutterFlow application.

### **Key Responsibilities:**

- **Custom Widget Development:** Design and code a Reels widget from scratch using Flutter and Dart, ensuring it meets performance and usability standards.
- **FlutterFlow Integration:** Integrate the custom widget seamlessly into a FlutterFlow project, enabling smooth interactions and functionality.
- **Dynamic Navigation:** Implement features like button interactions that redirect users to different pages, passing parameters dynamically to the next page within the FlutterFlow environment.
- **Collaboration:** Work closely with the design and backend teams to ensure the widget aligns with project requirements.
- **Testing and Debugging:** Perform thorough testing to identify and fix bugs, ensuring a smooth user experience.
- **Documentation:** Maintain detailed documentation of the widget development process, including integration steps and parameter handling.

### **Required Skills:**

- Proficiency in **Flutter** and **Dart** for mobile application development.
- Familiarity with **FlutterFlow** and its widget integration capabilities.
- Experience or understanding of creating custom widgets in Flutter.
- Knowledge of navigation techniques and parameter passing in Flutter.
- Strong problem-solving skills and attention to detail.
- Basic understanding of REST APIs for potential backend integrations.

### **Preferred Skills:**

- Familiarity with video handling and playback in Flutter for creating Reels-like functionality.
- Experience in working with animations and transitions in Flutter.

## **Articea**

### **Benefits:**

- Opportunity to work on a real-world project with a focus on innovation.
- Mentorship from experienced developers and team leads.
- Exposure to FlutterFlow, a powerful no-code/low-code tool for app development.
- Certificate of Internship upon successful completion.
- Potential for a pre-placement offer based on performance.

### **How to Apply:**

Send your updated resume and portfolio (if any) to [team@uhtarticea.com](mailto:team@uhtarticea.com) with the subject line "Application for Flutter Developer Intern".

**We look forward to welcoming you to our team!**
